BluePeak MediaWorks Submission

Prepared by: BluePeak MediaWorks Europe-APAC Team | Contact: Javier Mehra | Currency: EUR

RFQ Reference: RFQ-MKT-KIDS-GL-2026-001 - RFQ for global launch marketing services for new kids health drink

Executive Summary

This response covers the archived generated questionnaire, the requested service line items, and the commercial pricing schedule expected in the RFQ package.

Agency Overview

BluePeak MediaWorks operates as a regional network model with shared strategy, creative, media, and regulatory resources across Europe and APAC. For this launch, BluePeak is positioning itself as a cross-market coordination partner with strong adaptation discipline and media integration, but with a more premium commercial model than the benchmark vendor.

Strategic Point of View

We believe the launch should be built around one claims-safe family-health platform that can flex by market while preserving a single strategic spine across film, social, and activation.

Selected Relevant Work

- Regional children's dairy campaign rolled out with one central asset system and local market adaptation packs.

- Consumer health launch using synchronized creative, media planning, and compliance review across EMEA and Asia.

Questionnaire Responses

q_cr_mac_1

Question: Confirm whether your agency can support child-directed advertising for this launch. Answer Yes or No and identify the in-house team or partner capability that will perform this work.

Response: Yes. Child-directed advertising support would be provided by our Youth Audience Strategy Lead and the regional policy reviewers assigned to the account.

q_cr_mac_2

Question: Confirm whether your agency can support claims review for launch assets and product-related claims. Answer Yes or No and identify the in-house team or partner capability that will perform this work.

Response: Yes. Claims review support would be provided through our central regulatory desk with local counsel review in India, the UK, and key launch markets.

q_cr_mac_3

Question: Provide the full name, role title, and email address of the named engagement lead who will own this launch program.

Response: Javier Mehra, Client Partner, javier.mehra@bluepeakmediaworks.com. Javier would be the accountable engagement lead for scope, budget, and cross-market alignment.

q_cr_mac_4

Question: Confirm whether you are providing a launch governance approach. Answer Yes or No and submit a brief overview covering meeting cadence, decision ownership, and escalation.

Response: Yes. We propose a weekly client steering call, Monday delivery huddle, and a formal approval tracker owned by the PMO lead. Material risks move from workstream leads to the client partner and then to a joint escalation forum within one business day.

q_cr_mac_5

Question: State whether the buyer launch timelines are achievable. Select one option: Achievable as issued / Achievable with dependencies / Not achievable. Then list the key dependencies or constraints, or state None.

Response: Achievable with dependencies. The plan assumes weekly buyer decision windows, claims wording freeze before final film edit, and prompt regional feedback on social adaptations. Media buying activation also depends on market account access by the agreed cutover date.

q_cr_tech_1

Question: Describe your end-to-end approach for ensuring child-directed marketing safety and claims usage compliance across strategy, creative, TVC, social, and launch approvals. Include where reviews occur, who owns them, how issues are escalated, and how rework is prevented.

Response: BluePeak uses a layered compliance model: message architecture review before creative build, pre-shoot claims verification, edit-stage compliance review, and final market release sign-off. We use one control log across creative, social, and media teams so that claims-safe language stays consistent through production and launch.

q_cr_tech_2

Question: Provide your proposed launch workplan from kickoff to launch, showing key stages for strategy, creative, TVC, social, compliance review, and program management. Explain how approvals will be managed, what the critical dependencies are, and how schedule risks will be controlled.

Response: We would manage speed by locking the decision calendar upfront, parallelizing market adaptation work, and using a shared issue log with owner-by-owner turnaround targets. If delays appear, we prioritize milestone protection by moving non-critical adaptations behind the master asset release.

q_cr_tech_3

Question: Describe your approach to launch strategy and creative development for the new kids health drink, including audience segmentation, messaging framework, creative territory development, and how the master campaign idea will be carried into launch assets.

Response: Our strategy and creative approach centers on a family-health launch platform that can flex by market while keeping one clear claims-safe promise. We would build the audience segmentation and messaging framework first, then translate it into one film-led master idea supported by digital and social launch assets.

q_cr_tech_4

Question: Describe your approach to TVC development and production for the global launch, covering concept development, pre-production, shoot management, post-production, and delivery of the master film and cutdowns for paid media use.

Response: Our TVC approach covers concept development, storyboard and script approval, production planning, shoot management, edit supervision, and final delivery of the hero film with cutdowns. We would pre-align production constraints with compliance and regional adaptation needs so the master asset can feed paid media quickly.

Commercial Pricing Schedule

Line Item Ref	Line Item Name	Included in Quote	Currency	Total Price	Exclusions or Assumptions
